See the Sound - Visual Phonics can benefit:

- Students that read below grade level
- Children in early education programs
- At risk readers
- Students who are Deaf and hard of hearing
- Students learning English as a second language, English Language Learners (ELL)

How can it help?

- Makes clear how sounds and spoken language relates to written language
- Most beginning readers learn this strategy more quickly than other methods.
- It's cost effective and can be incorporated into almost any traditional reading program.
