Clerc Center Public Input

English

The Clerc Center is mandated by the Education of the Deaf Act “to establish and publish priorities for research, development, and demonstration through a process that allows for public input.” This public input process will help determine our priorities for the next five years.

The intent of the public input process is to collect a diverse range of perspectives on areas of need in the education of deaf and hard of hearing children across the United States. Your perspective would help guide us in determining what resources are needed to support deaf and hard of hearing children across the nation, their families, and the professionals who work with them.

We invite you to complete a brief online survey. If you are a parent, educator, service provider, or someone directly involved in educational services for deaf and hard of hearing children, we want to know what you think are significant barriers facing deaf and hard of hearing students ages birth through high school.

We also invite you to share this survey with others whom you think can help the Clerc Center determine its national priorities for the Clerc Center Strategic Plan 2025.

Your involvement is very important to the Clerc Center. Thank you!

## Aporte de Opinión Pública

El Laurent Clerc National Deaf Education Center en el campus de Gallaudet University en Washington, DC, se complace en anunciar el inicio de nuestro proceso de opinión pública.

Al Clerc Center se le ha dado la responsabilidad a través del Acta de Educación para Sordos "a establecer y publicar prioridades para la investigación, desarrollo y demostración, a través de un proceso que permita el aporte del público". Este proceso de opinión pública ayudará a determinar nuestras prioridades para los próximos cinco años.

La intención del proceso de aporte público es de recolectar diferentes perspectivas en las áreas de necesidad en la educación de niños sordos e hipoacúsicos en los Estados Unidos. Su perspectiva nos ayudará a determinar qué recursos son necesarios para apoyar a los niños sordos e hipoacúsicos, a sus familias, y a los profesionales que trabajan con ellos en toda la nación.

Los invitamos a completar una breve encuesta en línea. Si usted es un padre, educador, proveedor de servicios o alguien que está directamente involucrado en servicios educativos para niños sordos e hipoacúsicos, nosotros queremos saber lo que usted piensa son las barreras significativas que enfrentan los estudiantes sordos e hipoacúsicos desde el nacimiento hasta la escuela secundaria.

También los invitamos a compartir esta encuesta con otras personas que usted piensa pueden ayudar al Clerc Center a determinar sus prioridades nacionales para el Plan Estratégico del Clerc Center (Clerc Center Strategic Plan) 2025.

Su participación es muy importante para el Clerc Center. ¡Gracias!
