

Kentucky Commission on the Deaf and Hard of Hearing

Betty “JustBetty” Timon

It is with a heavy heart we share with you the passing of Betty Timon or “JustBetty” as most of us knew her.

This woman was so much more than "just" a Betty! Betty Timon was a passionate advocate who worked tirelessly for the equal rights of individuals with a hearing loss for over 25 years. It didn't matter if the access in question regarded telephones, movie theaters, housing for senior citizens, nursing home accommodations, or any other topic, she always gave it her ALL.

In all those years of service, she was a role model for thousands, and mentored many an individual to “get off their butts” and DO something to change things. Her influence and support encouraged others within the community to find the courage to make a stand for whatever needed to be done “right”. She never backed down when faced with opposition, but held her ground with kindness in her heart and a smile on her face. Betty was a friend, a real friend. The kind who tells you what you need to hear, not necessarily what you wanted to hear, and she did it with love. She was a devoted wife for over 60 years, a mother, a grandmother and a very proud great grandmother. She was beautiful inside and out, full of life, and fun!

As I contemplated the loss I was feeling, I googled the word “just” wondering why she was “JustBetty”. There I found that “just” is described as: fair, decent, dependable, equal, ethical, evenhanded, fair-minded, good, honest, honorable, objective, pure, reliable, rightful, scrupulous, true, trustworthy, unbiased, upright, and virtuous. What a perfect description of this wonderful woman! “JustBetty”, you will be missed by all who knew you! Peace our friend, we will carry on your torch.

Virginia L. Moore
Executive Director
