

KCDHH TAP Advisory Board Vacancies

Note: Applications must be received by February 28th, 2022

There are two vacancies on the Board of the Kentucky Commission on the Deaf and Hard of Hearing (KCDHH) Telecommunications Access Program (TAP) Advisory Board, which advises the TAP on assistive technology for deaf, hard of hearing and speech-impaired consumers.

KCDHH is looking for enthusiastic, creative individuals eager to participate in the TAP's mission to provide access to telecommunications for deaf, hard of hearing and speech-impaired consumers in the state of Kentucky through the distribution of specialized telecommunications equipment.

Appointed by the KCDHH Board, the two Speech-impaired Consumer Representatives' four-year terms will be effective immediately upon notification of appointment by the KCDHH Board. Applicants must be speech-impaired as defined by regulation in 735 KAR 1:010: "A person with a communication disorder such as stuttering, impaired articulation, impaired language, or impaired voice that adversely affects the use of telecommunication access lines."

Persons interested in the Speech-impaired Consumer Representative seat should submit a statement of interest and a current resumé to:

Jessica Endler, TAP Program Coordinator
